CURRICULUM VITAE

Place of Residence Romania

Profile Test Engineer and programmer, with 10 years of QA in application/system testing, test automation and team management, seeking new challenges in a team where we can share a thriving, healthy culture based on trust and cooperation.

Skills & Competences

- Leadership, Passionate, extremely open- minded, change-supportive and dynamic team player, with a zen mindset focused on constant improvement.
- Encourage cooperation instead of competition, while promoting the accomplishment of happiness through helping others.
- Great responsibility is something I have grown up with, enthusiastically welcoming every challenge since childhood.

Application Software

- Excellent command of the following software:

Technical: Test automation (C#), Jira, DOORS, Excel, Word, PowerPoint, Perforce, Jenkins;

Industrial: Automotive (Diag, SWDL, Navi), eProcurement (Search Engine and Shop, with SAP SRM), Game (gameplay, TRS, CRM);

Methodologies: Large Waterfall projects, Complex Agile projects, DevOps – briefly.
